

PDE2D License Agreement

- 1 **License Grant and Title:** Licensee is granted the right to install PDE2D on one computer system, for each license purchased. Licensee agrees to take reasonable steps to ensure that no portion of the PDE2D code (except the interactive driver) is ever installed on more than one system at a time, for each license. Copyright, title and interest to PDE2D remain with Granville Sewell and with Visual Numerics, Inc.
- 2 **License Term:** The term of the license agreement is perpetual.
- 3 **Maintenance and Consulting:** Licensee will be given the latest version of PDE2D available at the time of purchase, in object code form. Granville Sewell agrees to fix any bugs or installation problems found by the user within 90 days of delivery of the software, and to be reasonably available during this same period (through the PDE2D forum, at forums.vni.com) to answer questions about PDE2D usage. After the initial 90 days, users are encouraged to continue posting PDE2D usage questions on the PDE2D forum, but Granville Sewell is under no contractual commitment to answer them. Licensee will not receive later versions unless purchased separately.
